RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Office Action mailed July 3, 2008, Applicant hereby elects Invention I, corresponding to claim 14, with traverse. Applicant traverses because he believes that searching for more than one of the identified groups would not be burdensome. For example, regarding the Examiner's remarks on page 5 of the outstanding Office action, it would appear possible to construct a single text search, comprising keywords such as "ionization," that would yield results related to several, or perhaps all, of the identified inventions.

Applicant reserves the right to file divisional applications to protect the non-elected inventions.

No fee is believed due for this submission. However, please charge any required fee(s) or credit any overpayments to Jones Day Deposit Account No. 50-3013.

Respectfully submitted,

Date: July 29, 2008
